

Hot Watt Solar, LLC

Energy Management & Renewable Energy

Introduces

THE LUX CUBE

A new generation of LED lighting

Low Voltage Available: 12,24,30vdc - ac voltage though UL power supply

Variety LED Colors: In Kelvin specify in 500 deg increments

Very Low Wattage = Huge Energy Savings: 25 watts/module

Maximum Lumen Per LED: from 60 to 110+

Superior High Quality CRI: Cree LED's - Best Quality

Intelligent Optics angles available: 08,21,29, "090 deg standard"

Standard Foot Candles per cube @ 30 feet: 2 foot candles (90 deg beam width)

Focused: 6-14 Foot candles (Minimal light pollution 8-29 deg beam)

Visible: 29 deg optics at 30 feet will focus light to a 15 foot area

Incredible: 08 deg optics at 30 feet will focus light to a 7 foot area

*By utilizing optics, we reduce wattage to provide optimum lighting on a desired areas!
